

1. Statistics Project Guidelines

Write Up Due December 5th

- Typed report in a text editor with GeoGebra graphs pasted in the document
- Convert final draft into a pdf file
- 3–5 paragraph — intro, supporting paragraphs, conclusion
- Correct spelling and grammar
- Graphs appropriately titled and (x and y) axes appropriately labeled
- Discussion about how you collected your data
- Data included in the back of the report
- Outside books or websites cited if used
- Discussion about what your data shows
- Discussion about what your GeoGebra graphs show
- Summary statistics from GeoGebra such as mean, correlation, SD, median, min, max, etc.
- Discussion about what these summary statistics mean and show
- Include prompt (project directions) at the beginning of your report or include a summary of the prompt in the introduction
